14. [redacted] LIAISON Spoke with Tom Latimer,
 Staff Director, House Permanent Select Committee on Intelligence. [redacted]

I advised Latimer of the FOIA appeal action which was being taken by Representative Les Aspin (D., Wis.), a member of the House Select Committee, in his personal capacity in an effort to obtain the release of information on Soviet naval forces.

I also asked Latimer if he knew whether Speaker Thomas O'Neill (D., Mass.) had been briefed on the "problem" involving the House International Relations Subcommittee on International Organizations. Latimer said he was quite sure that the Speaker had been briefed

15. [redacted] BRIEFING Ivo Spalatin, Staff Director, of the House International Relations Subcommittee on International Security and Scientific Affairs, called to ask if the notes that he and Bill Fite, of the Subcommittee staff, took at the 13 October briefing which they received from [redacted] NFAC/Chief, SALT Support Staff, could be sanitized and sent to them. The notes can be stored in the International Relations Committee safes if necessary. I passed the request to [redacted] who will review the notes.

16. [redacted] CONSTITUENT [redacted] called to say he would send today a proposal on helicopters which he and his associates believe might be of interest to CIA. This was a follow-up of his call of 11 October. (See Memorandum for the Record.)

17. [redacted] BRIEFING I got details by phone from Brian Conniff, GAO, concerning the interest he expressed to [redacted] OSR, on 12 October for a briefing on threats to the U.S. Navy. Conniff agreed to defer plans to meet with CIA analysts on 17 October to give an opportunity to review the request. The request has been referred to NFAC/CSS. (See Memorandum for the Record.)
